

# Spintronics and 2D - Materials

## minisymposium

May 2<sup>nd</sup>, 2016 | 10 am - 3:30 pm

Lecture Hall MPI MSP

Halle (Saale) | Germany

### Speakers

| Sérgio Machado Rezende

Departamento de Física, Universidade Federal de Pernambuco, Brazil

| Wei Han

International Center for Quantum Materials - Peking University, Beijing, China

| Xinliang Feng

Center for Advancing Electronics Dresden & Department of Chemistry and Food Chemistry, Technische Universität Dresden, Germany

### Topics

| Spin Transport and Spin Seebeck Effect in Antiferromagnetic Insulators

| Interface Effects on Spin Orbit Torque and Gilbert damping

| Synthetic Two-Dimensional Soft Materials

### Registration
