

Electron Microscopy of magnetic structures

minisymposium

Oct. 1st, 2015

Dormero Hotel Rotes Ross
Halle (Saale) | Germany

Speakers

- | Thomas Höche - FHI IWMH
- | Martha McCarney - Arizona State University
- | Hidetaka Sawada - JEOL, UK, Ltd.
- | Emrah Yücelen - FEI Electron Optics BV
- | Josef Zweck - University Regensburg
- | Marc de Graef - Carnegie Mellon University
- | Rafal Dunin-Borkowski - ERC Juelich

Topics

- | State of the art transmission electron microscopy (TEM) on atomically engineered nano-structures
- | Lorentz microscopy for the characterization and analysis of non-collinear spin-textures
- | Development of corresponding in-situ sample manipulation at low-temperatures and in high magnetic fields
